PERSONAL PROFILE

I am a second-year Computer Science student at MSEUF, specializing in Software Engineering. I have a solid foundation in Python and have built projects like a Tetris game, a Minecraft Discord bot, and a GUI-based inventory system using PyQt5 and Kivy. I'm passionate about learning new technologies, working in teams, and solving problems. I'm exploring both front-end and back-end development and aim to improve my skills beyond the basics. I'm also studying UI and logo design to expand my creative abilities.

EDUCATION

MANUEL S. ENVERGA UNIVERSITY FOUNDATION 2 nd Year <i>B.S. in Computer Science Specialized in Software Engineering</i>	Expected May 2028 <i>Lucena City, Philippines</i>
CALAYAN EDUCATIONAL FOUNDATION INC. <i>Gr. 11 – Gr. 12 Senior High School</i>	2022 - 2024 <i>Lucena City, Philippines</i>
CALAYAN EDUCATIONAL FOUNDATION INC. <i>Gr. 7 – Gr. 10 Junior High School</i>	2017 - 2021 <i>Lucena City, Philippines</i>
Alcastle Educational School Incorporated <i>Kinder – Gr. 6 Elementary</i>	2012 - 2017 <i>Pagbilao Quezon, Philippines</i>

PROJECTS	DESCRIPTION	TECHOLOGIES
Tetris- A Modern Tetris Clone	A custom-made version of Tetris with smooth controls, custom sounds, preview window, smart collision detection, and score tracking.	Python, Pygame
Utang Management System (CLI)	A CLI tool for tracking customer debts and transactions using CSV storage. Includes features for adding, viewing, searching, and deleting records.	Python, CSV, Built-in Modules
Receipt Maker	A terminal app for generating receipts at a water refilling station. Features include order creation, history logging, and formatted output.	Python, CSV, Built-in Modules
Utang Management System (GUI)	A Kivy-based desktop app to manage credit transactions via a user-friendly GUI. Supports full CRUD functionality and uses .kv for UI layout.	Python, Kivy, CSV
SQL Exercises	A portfolio of SQL practice sets including schema designs and complex queries for systems like libraries, inventory, and grading.	SQL, SQLite3

TECHNICAL SKILLS

- Languages: Python, SQL, C++
- Frameworks & Libraries: Pygame, Kivy, PyQt5, Discord.py
- Databases: SQLite, MySQL, CSV (File-based storage)
- Tools: GitHub, VS Code, PyCharm
- Concepts: OOP, CRUD Operations, GUI Design, File I/O
- Design: UI/UX principles, Logo Design (basic)
- Soft Skills: Communication, Leadership, Team Collaboration, Adaptability, Problem-Solving

CERTIFICATE

MACHINE DESIGN SUMMIT 2024 <i>Certificate of Participation</i>	April 19, 2024 <i>UP Diliman, Quezon City Manila</i>
SIMONTECH COMPUTER CENTER <i>OJT Certificate of Completion</i>	March 26, 2024 – April 13, 2024 <i>Ibabang Dupay 4301, Lucena City</i>

PROFESSIONAL AFFILIATIONS

- 1st Year Representative CS, *Philippine Society of Information Technology Students* (2024 – Present)
- Participant (Team HelloWorld), *BPI DATA Wave 2025 Hackaton*
